

SOUTHERN DISTRICTS COMPUTER USERS CLUB INC.

January 2014

Vol. 14
No. 1

Club Web Site <http://sdcuci.com>

**MEETINGS are held on
the third Wednesday
of the month at 7.30
pm, in the Hall at the
rear of
St Mary's Catholic
Church
Morphett Vale.
(Corner Bains Road
and Main South Road)**

Visitors most welcome.
After three visits,
visitors will be
requested to become
members.

Cost \$2 per person,
which includes the
Newsletter, plus coffee/
tea and biscuits.
Subscriptions for twelve
months
Single \$18
Family membership \$24

Novice and experienced
computer users will be
warmly welcomed

**Happy
New Year
and
Welcome
2014**

Editors: Bib and Bub

Our next meeting is scheduled for

Wednesday 19th February 2014 at 7.30 pm.

Topic: Digital Estates

The Committee in 2013 / 2014

PRESIDENT:	Lionel Leddra	lleddra@bigpond.net.au
VICE PRESIDENT:	John Kirby	john.kirby@adam.com.au
SECRETARY:	Trevor Francis	tjfrancis@adam.com.au
TREASURER:	Cheryl McDonald	cherylm@cobweb.com.au

COMMITTEE MEMBERS:

Emma Boss	eboss16@bigpond.com
Lindsay Chuck	lindsay.chuck@gmail.com
Jim Greenfield	jamesg@esc.net.au
Peter Janmaat	p_janmaat@dodo.com.au
Anne Leddra	lleddra@bigpond.net.au
Lorraine Loader	lorian23@bigpond.com
Wanda McDonald	rmcd3779@bigpond.net.au
Robert Zeugofsge	Zogs22@bigpond.com
Ann Zeugofsge	Zogs22@bigpond.com

2013-14 Committee Members

Last month's meeting - Christmas Party

What a great night we all had.

All who walked through the door were given a complimentary drink and hors d'oeuvres.

The salads, meat and sweets were wonderfully presented and a big thankyou to all who helped bring this great meal together.

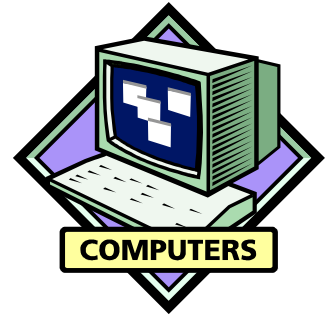

There were door prizes, well actually, 'hat' prizes because one had to have less stars on their Christmas hats to win one of the three prizes on offer.

We were then treated to a very funny skit called '**if I were not one of Santa's helpers, I would be a**'

How do I backup my computer?

Backing up your computer is critical to avoiding data loss. It is merely making a **copy** of data and/or program files and then keeping that copy in a safe place.

The reason is simple - if something happens to your computer so that you can't retrieve your information (which happens more often than we realize), or you somehow lose access to your data, then you can get the information from the backup copies.

Types of backup

- **Copying your data.** This is very simple. For example, if you copy pictures off your digital camera and then immediately burn those pictures to a CD for safe-keeping, you have backed them up. Similarly, if you regularly take the contents of your "My Documents" folder tree and copy it to another machine or CD, that is also backing up those files. They are safely stored in another location in addition to your computer.
- **Imaging your system.** This is also very simple. Rather than backing up only this and that, hoping that you actually remembered to include everything, this approach makes a copy of **everything**: your data, your programs, your settings - even the operating system itself.

If your data is in only one place, meaning that there are no copies of that data, then you are not backed up!

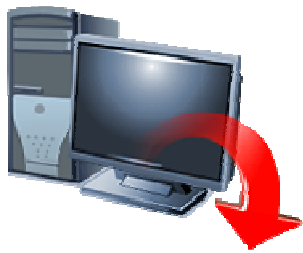

Backup locations

Where should this "other location" be? Far away from your computer as practical - the further away, the more you are protected from various types of disasters.

- If the backup is on the same hard disk, then you could lose your data and your backup if that hard disk dies.

How to backup my computer, cont'd

- If the backup is on a different hard disk, but inside the same computer, then you could lose your data and backup if something happens to the computer that causes both hard disks to be harmed.

- If the backup is on an external hard disk but connected to the same computer, then you could lose your data and your backup if there is a software glitch or malware on that computer that starts destroying files on all connected devices.

- If the backup is burned to a CD or DVD but kept in the same location or any of the solutions are all in the same place, then you could lose your data and your backup if that location suffers a physical catastrophe (such as fire or flood).

A suggested plan for backing up

The three most common issues people encounter that causes data loss are:

- Malware
- Hard drive failure
- Accidental deletion

For most average home users, it is suggested you

- Get an external USB hard disk
- Use an automated backup program and back up everything as an image backup to the external drive automatically on a daily or weekly schedule.

This won't protect you from everything (like your house burning down), but it will protect your data from the most common causes of data loss. If your hard disk dies, you can restore files and perhaps the entire system from your backup. If you happen to delete a file by accident, then as long as it was there when the most recent backup was taken, you can restore it quickly and easily.

THE YARDBROOM REPORT NO 2.

REPORT FROM OUR PRESIDENT

Thank goodness the silly season is behind us. It does, however, make way for the exciting season known as the New Year, more commonly known as **2014**.

This is the season where initial grandiose plans are ditched for exciting practical alternatives and also where our Club forgoes the hype and hoopla and endeavours to provide an interesting (maybe even exciting) program of events for the members.

Current plans include a number of workshops covering more practical aspects in our computer world, eg using tablets and using parts of Microsoft Office. These could be held at a normal meeting or held separately.

More familiar lecture or presentation nights will include how to start an unresponsive (irresponsible!!) computer, 3D printing and regenerating old photographs. Our aim is to provide this in an informative and entertaining way. The exciting part is learning something new each time.

Each week I will preview the planned event for next months meeting.

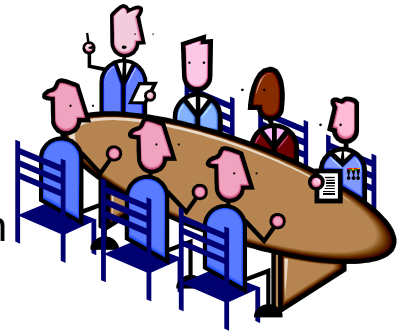

Next month, Lindsay Chuck will be presenting on a subject not many people consider, let alone know about. His subject will be **Digital Estates**.

Enjoy your evening!

Lionel Leddra
(The Yardbroom President)

Committee Capers.

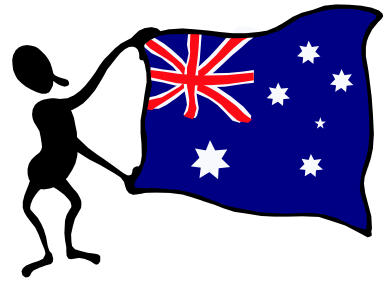

The committee meeting was held on Monday January 6th. Discussions included:

- The Asset Register has been updated to include new equipment purchased over the last 2 years.
- Windows 8.1 is to be purchased by March for a club computer.
- Instrument boxes and foam to be purchased to protect the two club projectors while in transit.
- Peter has created a club Facebook page for members to join. This will be mentioned at January's meeting.
- Dates for the MovieMaker courses have been finalised at a cost of \$40. They will be a 2 week course (1 day per week) from 9.30am to 12.30pm.
- Discussed using proceeds over and above cost of April's (Easter) raffle to be donated to the Mary Help of Christians Church.
- Two new advertisers for the newsletter have been approved.
- Dates and advertising for our next course/s was discussed.
- Topics for future meetings discussed.

Recipe Corner

Australia Day Fare

For a change, we are not providing a recipe, just food ideas to help you celebrate Australia Day.

The Favourite Pavlova

Expert Assist List.

Keep this Contact list handy and phone these people first if you have a problem with any one of the subjects mentioned below.

Email, Windows Live Mail	Lionel Leddra	8381 2821
Email, Thunderbird	Trevor Francis	8186 1138
E-readers, Tablets	Lionel & Anne Leddra	8381 2821
Hardware & operating systems, re-loads, CD DVD fix	Jim Greenfield	8382 4912
Microsoft Office, Word, Excel, Powerpoint and Publisher	Trevor Francis	8186 1138
Microsoft Movie Maker	Lorraine Loader	8382 7243
Photographic, Windows Photo Gallery, Paint Shop Pro	Anne & Lionel Leddra	8381 2821
Photographic, Photoshop	Trevor Francis	8186 1138
Tablets	John Kirby	7007 4819
Video programming to CD/DVD	Cheryl McDonald	8382 3660
Wi-Fi connections & Tablets	Emma Boss	8386 2723

Computer Courses for 2014.

- Windows Live Movie Maker scheduled for 14th & 21st January 2014 (fully booked) and 28th January & 4th February 2014. Cost \$40.
- Computer Basics I & II for Windows 7 & 8
- Photos: Camera to Computer Image Management Course

If you wish to attend any Course, please contact Anne Leddra on 8381 2821.

If you have a special request regarding a program, eg Word, Publisher, Excel etc, please let a committee member know. We may be able to schedule a course to suit, sometime in the future.

The Five Riddles

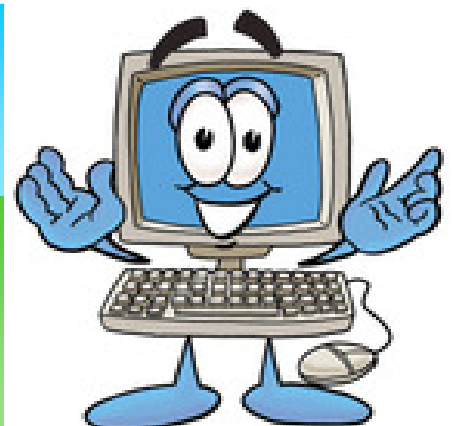

1. A murderer is condemned to death. He has to choose between three rooms. The first is full of raging fires, the second is full of assassins with loaded guns and the third is full of lions that haven't eaten in 3 years. Which room is safest for him?
2. A woman shoots her husband. Then she holds him under water for over 5 minutes. Finally, she hangs him but 5 minutes later they both go out together and enjoy a wonderful dinner together. How can this be?
3. What is black when you buy it, red when you use it and gray when you throw it away?
4. Can you name three consecutive days without using the words Wednesday, Friday or Sunday?
5. This is an unusual paragraph. I am curious as to just how quickly you can find out what is so unusual about it. It looks so ordinary and plain that you would think nothing was wrong with it. In fact, nothing is wrong with it! It is highly unusual though. Study it and think about it, but you still may not find anything odd. But if you work at it a bit, you might find out. Try to do so without any coaching.

CLIMATE CHANGE

When pregnant storm clouds broke their waters
Old Noah turned to his wife and daughters
“Thank God the animals are all abed
For it is raining cats n dogs” he said.

But times have changed and every day
With the click of a mouse I send away
My photos, files and music loud
Along with my books they’re despatched to the ‘Cloud’

And though the sky above is clear
They go up there and disappear
To be stored in some mysterious way
Until I call them back one day.

Now storm clouds gathering overhead
Fill my mind with thoughts of dread
That it will rain not cats n dogs
But CDs, photographs, books and blogs.

ONKAPARINGA

*** Items For Sale ***

Computers and Printer for Sale

Computers 1 - Windows XP with 'mouse' keyboards and flat screen monitors, all cables, plus some software. **\$50 each**

Computer 2 - Windows 98 - **\$25**

Printer - Canon Pixma IP 4600. Comes complete with 2 sets of continuous ink supply system and a lot of ink. **\$120 negotiable.**

Phone Peter on 0438 827 178

If you have something for sale, please let us know. Fill in the sheet at the front desk, or email:

Lorraine at **lorian23@bigpond.com**
Or Wanda at **rmcd3779@bigpond.net.au**

We will keep running your ad until you advise the item is either sold or "taken off the market".

Advertising on this page is FREE!!

MEETING RULES

We are allowed to use the facilities at the Hall at the rear of St Mary's Catholic Church Morphett Vale. (Corner Bains Road and Main South Road) in return of a small fee plus respect for their property. We ask for your co-operation in respect to the above. While we can not control what our members do away from our club meetings, Piracy of copyright material can not be condoned at our meetings.

DID YOU KNOW THAT?

Refund on an Android App.

Did you know you have 15 minutes after installing an app to find out if it is faulty or if you are not satisfied with it to claim a refund. It is in Google's fine print. All you have to do is click on refund in the app. After this time period you have to seek a refund from the developer. Good luck!

Don't use your credit card for Apps.

When buying an app, music, or ebooks with your tablet you don't have to use your credit card. Buy an apple app, itune, or google play card at the supermarket or department store. Get them when they have a special offer.

Have separate email accounts.

If your husband or wife is considering buying a tablet, my advice is HAVE SEPARATE EMAIL ACCOUNTS and save yourself some hassles.

You can buy ebooks via BigW.

ANSWERS TO 5 RIDDLES:

- 1) The third room. Lions that haven't eaten in three years are dead. That one was easy, right?
- 2) The woman was a photographer. She shot a picture of her husband, developed it, and hung it up to dry.
- 3) Charcoal, as it is used in BBQing
- 4) Yesterday, today and tomorrow.
- 5) The letter "e" which is the most common letter used in the English language, does not appear even once in the paragraph.
