## INTERNET EXPLORER 8 BROWSER TIPS

### Save paper and ink when printing

If you want to print a page, but don't want all the images on the page to waste your ink, you can use the developer tools to get rid of them. To activate the feature, press **F12** on any web page and you'll see a new window open up.

Select the **Images** menu item and press **Disable Images** to switch off all images on the page, something that can speed up printing if you're only interested in the text content. If you select **View Alt Text** from the same menu item, it displays text describing the images instead.

Also try selecting **View > Link Paths**. You can see all of the links, and select them easily for copying to the clipboard.

### Browse more easily on netbooks

If you're viewing a website on a tiny netbook screen, make the page bigger by pressing the **F11** key. This switches IE8 into full-screen mode, removing all trace of the browser and letting the web page occupy the entire screen. If you move your mouse near the top of the screen, the missing parts of the screen reappear temporarily. Get back to normal by pressing **F11** again.

If you have a web page that you want to display in full screen all of the time, create a shortcut to IE on your desktop, right-click it and select **Properties**. Then after "**iexplore.exe**" in the target box (after the closing quote mark), type **-k** followed by a space followed by the web address.

### **Master your add-ons**

IE8 introduced the concept of Accelerators, a feature that enables you to perform a number of useful functions just by highlighting a piece of text on a web page. Although IE8 comes with a standard set of accelerators preinstalled, you can find many more (and also other add-ons such as web slices, visual searches and plug-ins) at <http://ieaddons.com>.

However, the more you install the more crowded you will find your accelerator menus becoming. You can control them by going to **Tools > Manage Add-ons**. You'll see a list of all currently-loaded add-ons by default but you can change this to show all add-ons by pressing the button under **Show**.

On the far right you'll see the Load time column (you may need to resize the window to see it). Click on the Load time column header to sort by the time each add-on takes to load. This way you can see which add-ons are slowing down your browser's start-up time, and by disabling these you can speed things up. To disable any add-on, click on it and press the **Disable button**

### **Cover your tracks with InPrivate Browsing**

In addition to the usual cookies and Web history, IE8 saves form data and passwords, search terms in the search box, and URLs in the address bar -- all in the name of making things easier for you. But easier for you means easier for everyone else, too -- a nosy boss, a prying parent or spouse, or anyone else you might not want to see what you do on the Web.

With InPrivate Browsing, you can browse without leaving a trace. Activate it by selecting InPrivate Browsing from the Safety menu. A new IE8 window will open with a blue InPrivate indicator to the left of the address bar. Nothing you view in that window will be accessible after you close it: no Web history, no saved cookies, no cached Internet files, no saved searches or URLs, no saved form data or passwords -- nothing.

## EMAIL FROM Lorraine and Ian Loader

**Subject:** Re: June 2012 SDCUCI Committee meeting!

**Date:** Sat, 9 Jun 2012 14:45:57 +0930

**From:** Ian & Lorraine Loader <[lorian23@bigpond.com](mailto:lorian23@bigpond.com)>

**To:** Trevor Francis <[tjfrancis@adam.com.au](mailto:tjfrancis@adam.com.au)>

Hi Trevor, and to whomever you wish to pass this on,  
Well, we're in Alice Springs. It's cold in the morning, as HRH President will avow to, and nice and warm in the daytime. We arrived Thursday morning and are now camped with Jeff, Tracey & Jai, and 4 others from Adelaide here to support them, ready for the Finke Desert Race which begins in earnest tomorrow morning at 7.30am. Scrutineering was last night, and I think nearly all of Alice Springs were there to view the 79 cars and 500 motor bikes. It's like a big fair, with food outlets and merchandise tents. There was pretty much standing room only. We couldn't leave until 9pm. Jeff had fuse problems after scrutineering, and we had to push the car (with no power steering) to the viewing bay.

This morning, with alarms set for 5.13am (that's his race number by the way) we left for the Prologue track, and once again there were fuse problems. He has now bypassed the problem (he hopes) and will be ceded for race start tomorrow morning. In the meantime, Ian, with the the other two blokes in our team, have already left to drive to Finke via Kulgera, ready to support Jeff & Jai when they arrive tomorrow. After they leave Finke on Monday morning, they will drive back to Alice

In the meantime, we 4 girls plan to watch the cars and bikes race past, from a vantage point a few ks down the track. It's very dusty!

We had a very nice 2 weeks in Daly River with friends who have a 4.2m tinny. We didn't disgrace ourselves entirely, catching 3 keepers (which are barramundi more than 55cm long) Dare I brag and say that I caught the largest, at 65cm)?

The weather has been hot and a little humid at times, and at Daly River, the mozzies and sand flies were not very nice at all. Counting crocodiles was a good thing to do when motoring back from fishing – top count 48. We wonder how many there were that we didn't see!

Please give my apologies at the meeting and we both hope everyone is well.  
Kindest regards,

Lorraine and Ian.

## EMAIL FROM EVACOM COMPUTERS PTY LTD

**Subject:** WINDING DOWN OF EVACOM COMPUTERS PTY LTD  
**Date:** Sat, 16 Jun 2012 13:45:54 +0930  
**From:** Evacom Computers <sales@evacom.com.au>  
**To:** <secretary@sdcuci.com>

Good afternoon Jim,

After 14 years of successful, award winning, local family business, **“Your Local Computer Shop”**, we have decided not to renew our lease and go on Holidays.

Please note that we will cease to trade at EOB on the **23rd June 2012**.

We would like to take this opportunity to thank all staff at S.D.C.U.I. for supporting Evacom over the last 14 years.

Kind Regards

John
